

As we have for the last 123 years, this legislative session we're continuing to work to improve the lives of women, children and families.

Our priorities include:

1. Combatting human trafficking.
2. Ensuring that our court system continues to be fair and balanced.
3. Saving MO money and helping women have the opportunity to reach financial success.

To get involved go to <https://www.ncjwstl.org/take-action/advocate/> to sign up for weekly emails on what you can do this week, see what legislation we are working on, lobby days, and community education events.

We're working for a better community.

Will you join us?
